# Low Profile Bathtub Safety Rail

## Low Profile Bathtub Safety Rail

This *Low Profile Bathtub safety rail* offers much needed support for disabled, elderly, post-surgery patients in need of temporary assistance, arthritis sufferers and anyone else who could use some extra stability getting in and out of the tub.

Manufactured of smooth 1" steel tubing with a textured safety grip finish, this unique two-level design is very versatile for multi-level needs as well as just about any height of user.

Installation is effortless and fast. The two foam-lined clamps attach the rail securely to any position on the tub wall to provide a sturdy apparatus that won't scratch the tub surface.

Frame is 18" Wide and ranges in height from 6" to 18".

Fits all modern tub walls that measure 3.5" to 6.5" wide.

ADA Compliant.
